

# How to Become a Certified Water Treatment, Distribution and/or Bottled Water System Operator

## Water Operator Certification Regulations:

- [401 KAR 11:001](#)—Definitions for 401 KAR Chapter 11
- [401 KAR 11:010](#)—Boards of Certification
- [401 KAR 11:020](#)—Standards of professional conduct for certified operators
- [401 KAR 11:040](#)—Water treatment and distribution system operators; classification and qualifications.
- [401 KAR 11:050](#)—Operator certification
- [401 KAR 8:050](#)—Drinking water program fees

Certification fees are non-refundable. Please make sure that you meet the minimum education and experience requirements prior to submitting an application to the certification program.

Additional information regarding the operator certification program may be obtained by visiting the program's Web site at [www.dca.ky.gov/certification](http://www.dca.ky.gov/certification).

You may also contact the Certification and Licensing Program at 502-564-0323 or 800-926-8111.

## Program Overview

The Water Treatment and Distribution System Operator Certification Program, administered by the Division of Compliance Assistance, is required by regulation. Certification is obtained by meeting minimum education and experience requirements, submitting the appropriate forms and fee, and by passing the certification examination.

There are multiple levels of water treatment, distribution system and bottled water system operator certifications. In order to qualify to take a Kentucky Water Operator Certification examination, an applicant must meet the experience and education requirements appropriate for that particular certification level.

## Regulations Pertaining to Operator Certification

Regulations pertaining to the certification of water treatment, distribution system and bottled water system operators are located in [401 KAR Chapter 11](#).

## Who Must Comply

KRS 223.210 requires that a person shall not be in direct responsible charge for the operation of a water treatment plant or water distribution system unless the operator has passed an examination prescribed by the cabinet. [401 KAR 8:030](#) requires that each public water system shall operate its water treatment plant, distribution system and bottled water system under the supervision of a certified operator who is in direct responsible charge of the system.

## Requirements

The requirements for each water treatment, distribution system and bottled water system certification level are located in [401 KAR 11:040](#). The tables listed on page two are intended to be a supplement to the regulation.

## Procedures for Applying for Certification

[401 KAR 11:050](#) establishes application and examination procedures for becoming certified. Applicants must submit an [Education and Experience Documentation Form](#) as well as a [Registration Form for Exams and Training](#). The examination fee of \$100 must be submitted with the forms. Applicants may choose to attend the certification preparatory training prior to the examination. The fee for the preparatory training must be submitted with the forms and examination fee. The fees are listed on the bottom of the Registration Form for Exams and Training. The schedule of training events and examination dates are located on the program's [Web site](#).
